

Mozaikové omítky

Mozaikové omítky AUSWAHL rozšiřují možnosti povrchových úprav stavebních podkladů. Jedná se o pastovité omítky s organickým pojivem, které po vytvrzení vytvářejí pružnou a omyvatelnou vrstvu s vysokou odolností proti mechanickému poškození a povětrnostním vlivům. V sortimentu jsou zařazeny tři typy mozaikových omítek. AUS Deco Putz a AUS Deco Putz F obsahující barvené křemenné plnivo a AUS Deco Putz Marble obsahující barevný drcený mramor.
